M/Class Monitor Arms

M/Class: The Next Generation of Monitor Arms

M/Class Monitor Arms

The modern workstation is evolving, and Humanscale is setting the pace. As displays become larger and more immersive, M/Class monitor arms bridge the gap between industrial-grade engineering and minimalist design. Featuring the the high weight capacity of M2 Pro and M8 Pro, the M/Class series delivers the stability and intuitive adjustment required for today's screens without visual or mechanical excess. Designed for seamless adaptability and refined aesthetics, M/Class personalizes the workstation to support comfort, health, and sustained focus throughout the workday.

Engineered for Today's Displays

Without a monitor arm, you're forced to lean forward to view your display (you may be guilty of this right now!). This posture proves particularly unhealthy for your spine, neck, and shoulders . Our monitor arms let you position your display to the correct height and distance, moving effortlessly to match your posture and allowing your body to work in its healthiest positions.

Counterbalance Indicator

Rubberized Cable Management

Tamper Proof Smart Stop

Quick Release Joints

M/Connect Docking Station

M/Class Features

Counterbalance Indicator

A built-in Counterbalance Indicator provides the ability to counterbalance the monitor weight before monitor installation to reduce expensive computer set-up costs.

Rubberized Cable Management

Flexible rubber channels easily hide, protect, and manage your cables.

Quick Release Joints

Patented mechanisms like our Quick Release joint make for easy set up. Our entire Monitor Arm system is just a push and click away from building and reconfiguring your next workstation. Only one tool is required, and its neatly concealed inside the arm base.

Tamper Proof Smart Stop

Our patent-pending Smart Stop is a wall saver—by customizing the rotation of the arm, you can control how far your screen rotates to protect surrounding areas and equipment.

M/Connect Docking Station

Compatible with M/Connect 3 and M/Power integrated docking stations, to conveniently bring power and data directly to the user.

Accessory Holder

Optional Accessory Holder holds items up to 3 lbs.

M/Class Options

Humanscale has long offered one of the most comprehensive monitor arm portfolios in the industry, and M/Class builds on that foundation across M2 Pro, M8 Pro, and M/Flex Systems. Designed to support today's larger and heavier displays, M/Class expands application flexibility, extends load capacity, and provides scalable solutions for multi-monitor environments.

“Designing M/Class was an exercise in constraint—supporting more weight, with greater control, while preserving the simplicity and ease that define Humanscale.”

— Humanscale Design Studio

Applications

From complex trading floors to creative studios, the M/Class series is built for environments where technology never stops moving. Its refined engineering allows for an effortless transition between focused individual work and collaborative screen sharing. Whether integrated into a single workstation or deployed across an entire enterprise, M/Class provides a stable, streamlined foundation that keeps the focus on the task, not the equipment.

M/Flex Systems – Quad Monitors

M8 Pro – Work From Home

M2 Pro – Office Workstations

M8 Pro – Executive Office

M8 Pro – Hot Desking

Sustainability

Performance and sustainability are central to the design of Humanscale monitor arms. A modular system simplifies installation and reduces the need for additional resources, while careful decisions around material selection and packaging efficiency help minimize the energy required to bring each product to your workspace. Made with non-toxic materials, post-consumer recycled content, and produced in TRUE Zero Waste facilities, Humanscale monitor arms are 110% Planet Positive. Each one contributes positively to environmental energy, water, and carbon outcomes. The result is a durable, thoughtfully engineered solution that supports productivity today while helping protect tomorrow's resources.

Built to Last

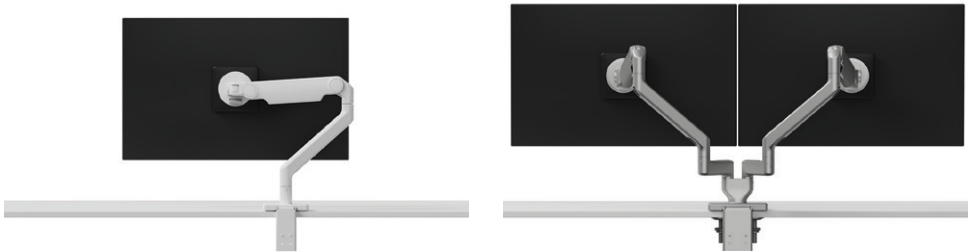

M/Class monitor arms products are engineered for longevity and backed by Humanscale's industry-leading warranties. Every component—from the high-tension internal counterbalance to the quick-release joints—undergoes rigorous testing to ensure seamless performance through years of daily adjustment. More than just a support system, the M/Class is a lasting investment in the future of the workspace, designed to evolve alongside the technology it holds.

Statement of Line

The M/Class monitor arm series supports a wide range of display configurations, from single screens to multi-monitor setups. Whether arranged horizontally, vertically, or in multi-screen layouts, M/Class is designed to adapt with ease. No matter the display or setup, M/Class provides a flexible system that supports it with confidence.
